COURSEWORK

UNDERGRADUATE
Data Structure & Algorithms,
Operating System
DBMS
Object Oriented Programming

SKILLS

TECHNICAL
• React Js   MongoDB
• Node Js   PostgreSQL
• Express Js   Next Js
• TypeScript   Tailwind Css

LANGUAGE
• JAVA ,C , JavaScript
• Familier: Python

TOOLS
• Docker
• CI/CD

NON TECHNICAL
● Collaboration
● Leadership
● Professional Growth

PROJECT

Social Media Website (Thread Clone)
MAR 2024 - APR 2024 | (**LINK**)
• Tech Stack Used : **TypeScript**, **NEXT JS, PostgreSQL**, **Prisma, Vine Js.**

• Developed a comprehensive social media website similar to Thread, leveraging TypeScript, NEXT JS, PostgreSQL, Prisma, and Vite JS, with robust authentication.
The website will be fully authenticated using the Next-Auth library. It will encompass essential functionalities like text and image posting, post liking, commenting, and user profile viewing.

Keep Notes | Task Manager Website
JAN 2024 - FEB 2024 | (**LINK**)
• Tech Stack Used : **MERN**, **NEXT JS.**

• Developed a full-stack web application employing Next.js, integrating the MERN stack technology.
The website will encompass key functionalities such as authentication-enabled saving of daily tasks.

Lost & Found Website
JAN 2023 | (**LINK**)
• Tech Stack Used : **MERN.**

• The Lost & Found project utilized the MERN stack.
Design a website where users can add and locate lost items, enabling them to find their important belongings with accurate location details and images.

Contact Management Website
NOV 2023 - DES 2023 | (**LINK**)
• Tech Stack Used : **MERN.**

• The website content offers features such as the ability to input and save **contact information**. Additionally, it provides functionality to **generated a printed** list of all contacts.

INTERESTS

• Cricket || Chess || VolleyBall
• Music
• Traveling

CERTIFICATE

• Web Development Bootcamp.
